

Establishment of a transport and logistics hub in Voronovo District

A transport and logistics hub can be placed in Voronovo District.

A set of unused buildings and structures located in the village of Bastuny can be used as the initial base. The set includes four warehouses as large as 722m², 604m², 1,514m², and 1,248m² respectively, an office building as large as 295m², and a recreation facility as large as 227m². The buildings are now owned by the mechanical engineering enterprise Voronovo SKhT of the Grodno Oblast unitary enterprise Oblselkhoztekhnika.

The buildings are located 30km away from the Belarusian-Lithuanian border (the border checkpoint Benyakoni 1) and have access to the railway grid.

To learn more about buying the real estate assets, please, call us:

+37515 94 25136 – Galina Latarevich, head of the Economy Department of the Voronovo District Executive Committee;

+37515 94 21387 – Oxana Shchiglo, chief specialist of the Economy Department of the Voronovo District Executive Committee.

We are looking for investors!

The Voronovo District administration is on the lookout for domestic and foreign companies willing to work together to start making products that sell well on the market and to render services.

We are ready to partially finance such investment projects and will consider any proposals from potential partners.
